

Grande Oilfield, L.L.C.
3300 Business I-35E
Pearsall, Texas 78061

Dear Valued Customer:

Grande Oilfield, L.L.C. appreciates the opportunity to share the following information with you;

Grande Oilfield established its' business operations in July of 2014. Originally founded as York-Porter & Bel/Conn Pipeline, the Company changed its' name to Grande Oilfield in April 2017. Grande has been in continuous growth mode since its' commencement and operates with a dedicated commitment to meet the needs of its proven customer base. Grande is led by its Founder and President/CEO, Ken York, as well as its COO, Dylan Del Toro. Grande's headquarters are in Pearsall, Tx and operates in all areas of Texas. Safety and Quality always the forefront, Grande delivers prompt service to specification, on budget and on-time. Grande's safety culture is its' core value and will always be its' highest priority.

Services:

GENERAL OILFIELD CONSTRUCTION MANAGEMENT: Grande can organize and supervise any size project from basic and routine maintenance to sophisticated gathering systems.

MAINTENANCE CREWS: Maintenance Crews are available on an as-needed basis for projects including but not limited to meter installations, valve replacements, pigging, in-service welding, pipeline anomaly repairs and rehab, well connects, pipeline marker replacement, fence/gate/cattle guard installation/repair, line locating, etc.

SANDBLASTING/PAINTING CREWS: The crews consist of a paint foreman and two laborers who are NACE trained and skilled in the application process of painting and other coatings on above ground piping, valve sites, tank batteries and facilities.

PIPELINE CONSTRUCTION: Skilled pipeline crews are available for the installation of steel, poly, fiber and flex pipelines. Utilizing a combination of company employees and reputable subcontractors we provide "turn key" pipeline construction.

ROUSTABOUT/LEASE CREW SERVICE: General crews offering well hook up service, tank battery construction, salt water disposal construction, flow line installation, torque/bolt-up, etc.

DIRT & CONCRETE / CIVIL CONSTRUCTION: Experienced crews available for well pad, facility pad, frack pond, lease road construction, repairs and improvements.

ROW & SITE MAINTENANCE: We offer mowing and maintenance services for ROW, facility locations, and valve sites. Mowing, weed removal & spraying, clearing, pipeline markers, sunken ditch, etc.

HYDROVAC SERVICES: Tank and Vessel Clean Outs (Confined Space & Non-Entry Rescue Trained), Pot-Holing/Daylighting, Spill clean-ups, etc.

Yards and Facilities:

Headquarters: 3300 Business Interstate 35E, Pearsall, TX 78061 (35 Acre Facility)

MSA's / Current Customers:

A global *energy* and communications company.

Chesapeake Energy Corporation is a petroleum and natural gas exploration and production company headquartered in Oklahoma City, Oklahoma.

Lewis Energy Group[®]

Lewis Energy Group is the leading producer of natural gas in South Texas. We have major operations in the Wilcox, Escondido, Olmos, Eagle Ford and Edwards formations, and constantly searching for super horizons. We are currently operating more than 1400 wells.

Plains All American Pipeline is a publicly traded Master limited partnership in the oil pipeline transportation, marketing, and storage business in the United States, liquefied petroleum gas business.

Crestwood is engaged in the gathering, processing, treating, compression, storage and transportation of natural gas; storage, transportation and marketing of NGLs; as well as gathering, storage, transportation and marketing of crude oil.

EOG Resources, Inc. is one of the largest independent (non-integrated) crude oil and natural gas companies in the United States with proved reserves in the United States, Trinidad, the United Kingdom and China.

Founded in 2004, the company currently operates approximately 360,000 gross acres throughout South Texas, one of the country's fastest growing unconventional basins with best-in-class economics, and is active in the Eagle Ford shale, Austin Chalk and other formations.

EPIC was formed in 2017 to build, own, and operate midstream infrastructure in both the Permian and Eagle Ford Basins. EPIC's first two projects, the EPIC Crude Oil Pipeline and the EPIC NGL Pipeline, will transport crude and NGL across Texas for delivery into the Corpus Christi market.

Discovery Natural Resources LLC is a private oil and gas company headquartered in Denver, CO. Discovery is focused on the acquisition, development and exploration of oil and gas properties in the Permian Basin. Since its inception over a decade ago, Discovery has assembled nearly 150,000 net acres in West Texas.

StarTex Field Services, LLC is a midstream operator specializing in green field gathering development. StarTex offers pipeline transportation from exploration and production companies to our treatment plants where H₂S, CO₂ and other gases are removed and treated. StarTex then provides the end result to downstream companies for refining.

INPEX acquired multiple development and production assets in the Eagle Ford shale play in Texas, the United States, from GulfTex Energy in April, 2019. Most of the assets are located in Karnes County, Texas, considered to be a highly productive area within the Eagle Ford shale play, which has long hosted a concentration of tight oil and shale gas development activity.

Enterprise Products Partners L.P. is one of the largest publicly traded partnerships and a leading North American provider of midstream energy services to producers and consumers of natural gas, natural gas liquids ("NGLs"), crude oil, refined products and petrochemicals.

Venado Oil & Gas is a privately-held energy company focused on exploring and developing oil and natural gas properties. The company is committed to the development of unconventional geologic formations of the Texas Gulf Coast with a specific focus on the Eagle Ford Shale formation. Venado utilizes the latest technology, while maintaining the highest level of professional standards.

Magellan Midstream Partners, L.P. is a publicly traded partnership that primarily transports, stores and distributes refined petroleum products and crude oil based in Tulsa, Okla. Formerly a part of Williams Companies, Magellan began trading as Williams Energy Partners in February 2001. In September 2003, we changed our name to Magellan Midstream Partners and began trading under the stock ticker MMP.

We are a full-service Permian midstream company offering a full suite of solutions for producers' oil, gas and water production including gathering, processing and treating.

Harvest Midstream is a privately-held midstream company services provider headquartered in Houston, Texas. With assets in Alaska, Louisiana, New Mexico, Ohio, Pennsylvania and Texas. Harvest transports and processes oil, natural gas and natural gas liquids across the United States.

Established in 2019 and based in San Antonio, Texas, Nueces Midstream, LLC ("Nueces") was founded by the former executives of TexStar Midstream Logistics, BlackBrush Oil & Gas and SemGas to focus on infrastructure development in south Texas and surrounding basins. Management has decades of experience in the development, commercialization, construction and operation of strategic midstream assets in key producing basins.
